

BDO Unibank (BDO PM)

FUNDAMENTAL VIEW ¹

As of 05 Mar 2025

- BDO Unibank (BDO) is the largest bank in the Philippines in terms of assets & market share.
- Given its size and systemic importance, BDO is considered too big to fail and is strongly likely to be supported by its controlling shareholder SM Investments, as well as the Philippine government in times of stress.
- BDO is widely viewed as the soundest bank in the country given its strong fundamentals, well-diversified businesses, and good management.

RISKS & CATALYSTS

As of 05 Mar 2025

- Growth in retail loans has been robust, but we see few asset quality risks for BDO given a comfortable NPL cover (145% at 4Q24) and build up of the CET1 ratio (FY24: 14.1%), as well as BDO's large corporates-focused book (52% of total loans) and underwriting track record. Loan growth momentum should carry through into 2025, with a strong pipeline in capex loans as a result of the larger banks' stronger banking relationships with the larger corporates.
- Some NIM reduction is likely in FY25 despite reductions to the reserve requirement ratio (RRR), as more BSP rate cuts come through.
- Any rating downgrade of the Philippine sovereign would negatively impact BDO.
